PROFESSIONAL SUMMARY

Backend Software Engineer with experience developing enterprise ERP systems, secure REST APIs, payment gateway integrations, biometric attendance solutions, and cross-platform desktop applications. Skilled in PHP, Laravel, CodeIgniter, Electron, MySQL, PostgreSQL, and backend architecture with a strong focus on performance, scalability, security, and maintainable software design.

EXPERIENCE

Laravel Developer

TIC Limited | Rajshahi
Sep 2025 – Sep 2026

- Develop and maintain enterprise ERP applications supporting e-commerce, POS, CRM, CMS, server management, employee attendance, and productivity management.
- Architected and implemented a centralized payment gateway (Pipra Pay), integrating multiple payment processors including **Bkash**, **Nagad**, **Stripe, PayPal, Adyen, Braintree, Whop, Helcim, and Heleket**. Enabling 4 external applications to process transactions through a unified REST API and automatically synchronize financial data with the ERP.
- Designed and developed TimeSync, a cross-platform desktop productivity tracking application integrated with the ERP through secure REST APIs.
- Designed and implemented 6 productivity modules, including attendance, screenshots, activity monitoring, offline synchronization, task synchronization, and desktop notifications.
- Integrated ZKTeco F28 biometric attendance devices with the ERP, enabling automated attendance synchronization and centralized attendance management for 25 employees.
- Developed keyboard and mouse activity monitoring, idle detection, and automated work session tracking to provide workforce productivity insights.
- Implemented offline data synchronization with automatic background synchronization after network restoration.
- Developed role-based task visibility and backend services while improving application performance, scalability, and maintainability.
- Integrated OpenAI LLM API into the enterprise ERP system to fully automate task and project management, enabling users to create, update, delete, and assign resources seamlessly via AI prompts.

Web Developer

Mediseba | Rajshahi
May 2025 – Aug 2025

- Developed and maintained the MediShop and MediSeba healthcare platforms.
- Integrated the SSLCommerz payment gateway to secure online payment processing.
- Improved average API response time.
- Reduced database query execution time.
- Improved backend performance for 15+ API endpoints.
- Integrated SMS, email, Google Maps, and payment services through REST APIs.

- Performed bug fixing, system maintenance, and backend feature enhancements.

Laravel Developer (Remote)
CRID USA | Remote
Nov 2024 – Apr 2025
- Developed and maintained the Kambaii Health Admin Panel using Laravel.
- Designed and implemented CRUD APIs for medical record management.
- Implemented Role-Based Access Control (RBAC) supporting 3 user roles.
- Performed QA testing and resolved backend issues.

Laravel Developer Intern
Ryven.CO | Dhaka
Mar 2024 – Aug 2024
- Migrated a legacy database schema to Laravel 10, improving query performance.
- Resolved application bugs during sprint cycles, reducing production issues.
- Restructured database migrations and route configurations.

EARLIER EXPERIENCE
Computer Operator — Dreams Enterprise | 2022 – 2023
Data Research Analyst (Remote) — Robautoparts | 2021 – 2023
Graphics Design Trainer — CICIT | 2019 – 2020

PROJECTS
Examination System • Ecommerce Platform • Password Manager • Chat Application • CRUD_API

SKILLS
Languages: PHP, JavaScript, Go, Python, SQL
Frameworks: Laravel, CodeIgniter, Electron, Flask, Fiber
Backend: REST APIs, JWT, OAuth, RBAC, MVC, Queue, Cron Jobs, Payment Gateway Integration
Databases: MySQL, PostgreSQL
Tools: Git, GitHub, Postman, PHPUnit, CI/CD
Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration,Adaptability, Time Management, Attention to Detail

EDUCATION
Bachelor of Business Administration (BBA)
- Mohanpur Govt. College, Rajshahi—Final Year

Higher Secondary Certificate (Business Studies)
- Varendra Government College, Rajshahi

Secondary School Certificate (Business Studies)
- Adarsha High School, Rajshahi

CERTIFICATIONS
- Laravel Essentials: User Roles & Permissions with Spatie
- PHP with MySQL: Build Real Estate Management System
- National Skill Standard Basic (NSSB)
- Llama 4: AI Mastering Prompt Engineering

LANGUAGES
- English, Hindi, Bengali
